Xianburg Announces Q4 Financial Results and Annual Filings

Vancouver, British Columbia, October 17, 2014 - Xianburg Data Systems Canada Corporation (the “**Company**”) announced that the Company has filed its 2013 Annual Financial Results and Management Discussion & Analysis for the three and twelve months ended December 31, 2013 pursuant to the requirements of the applicable securities laws. These filings may be viewed on the Company’s website www.xianburg.com or at www.sedar.com.

Selected highlights of the year:

Financial:

- Revenue of \$2.84 million, an increase of 3.27% compared to \$2.75 million for the previous fiscal year.
- Gross margin of \$1,013K (36% of revenue) an decrease of 1% compared to \$1,008K (37% of revenue) for the previous financial year.
- Net income was \$(702)K, an decrease of \$1,022K compared to \$320K in FY 2012.

The filing delay was due to resignation of former auditor in June 2014. There was no disagreement among the Company, its former and successor auditors or the Board or Audit Committee members in connection with the 2013 audited consolidated financial statements.

The Company is currently preparing its interim financial statements and Management Discussion & Analysis for the quarters ended March 31, 2014 and June 30, 2014, and will file the same once they been completed. The Company’s Board of Directors and management will also work with securities regulators with the goal of having the existing Cease Trade Orders revoked and the Company’s shares resume trading on a Canadian stock exchange as soon as possible.

The Company’s Board of Directors wishes to thank the Company’s shareholders for their patience and support over the past few months.

About Xianburg Data Systems Canada Corporation

The Company, through its wholly-owned subsidiary Xianburg Data Systems (Canada) Inc., governs and administers the operating entity Xianburg International Data Group Co., Ltd.(“XID”), a Chinese based operating company, and earns substantially all of its income from XID. XID is an IT products and services firm based in Xi'an and Beijing, PRC, and it is recognized as a leader in China in providing mass data storage and disaster recovery solutions. XID believes that it has held a position of advantage over its competitors in providing Big data systems solutions since 2010. XID has published more than 200 volumes of economic, cultural and business databases and it is a leading publisher of such databases in China.
